

## 109 年公務人員特種考試移民行政人員考試試題

考試別：移民行政人員

等 別：三等考試

類科組：移民行政（選試英文）

科 目：外國文（英文兼試移民專業英文）

甲、申論題部分：（75 分）

一、英譯中：請將下列英文譯為中文。（20 分）

The definition of national security has changed over the years to include terrorism, resource scarcity, migration, and now threats to population health.

During the first session of the United Nations Security Council of July 17, 2000, the UN declared the HIV/AIDS pandemic a threat to global security.

This is the first time in history that an issue of public health has been elevated to such status. While it is now increasingly understood due to the COVID-19 that a pandemic constitutes a tremendous threat to the prosperity and cohesion of countries, the process by which the disease destabilizes societies, economies, governance structures, and the national security apparatus remains opaque to us.

【擬答】

國家安全一詞的定義在過去數年間基於恐怖主義、資源稀缺、移民以及目前對於人口健康威脅等因素，已然產生變化。

聯合國在 2000 年 7 月 17 日聯合國安全理事會第一屆會議間宣布愛滋病毒流行已然脅迫到全球安全。此舉是史上首次將公共衛生健康議題提升至此層級。儘管人們逐漸理解當前新冠病毒疫情危及各國興盛繁榮與凝聚力甚巨，此疾病對社會、經濟、管理結構及國家安全機制逐步破壞的過程對大眾而言仍不明朗。

二、中譯英：請將下列中文譯為英文。（15 分）

在 1940 年，大多數人認為格陵蘭只是他們的世界地圖上靠近上方毫不起眼白白的一大團罷了。幾乎沒有人，更不用說當地居民，會想到這個地方或許對超級大國有其軍事重要性。但在接下來的 5 年裡，對許多國家而言，格陵蘭逐漸成為重要的軍事戰略據點。

【擬答】

In 1940, most people considered Greenland to be a huge but insignificant white mass at the top of their world map. Nearly no one, let alone the local residents, would perhaps have thought of its military importance to superpowers.

Nevertheless, in the next half a decade, Greenland gradually became a significant strategic hotspot for many countries.

三、英文寫作：請依據下列敘述，撰寫四則英文推特推文。每則推文最多字數為 55 個字。總字數限制：220 字以內。（40 分）

Choose one government department you want to work for, and write **FOUR** tweets to highlight its importance. Think of the first message as the “headline” that makes a promise regarding the values your chosen department offers at the national level as well as individual level. The next three messages should support the points that provide evidence to back up the values made in the first message. The word limit allowed for each message is **55** words.

【擬答】

**Tweet 1**

*Enhancing border management, maintaining national security, respecting cultural diversity, and protecting human rights. By strengthening human flow management and constructing an immigrant-friendly environment, the NIA (National Immigration Agency) will continue to make efforts in every aspect so that the goals of the government policy can be achieved.*

**Tweet 2**

For border security, immigration clearance services and anti-smuggling operations, the NIA has adopted advanced information technology systems in order to upgrade the overall immigration clearance service quality as well as to effectively stop illegal activities at the borders and prevent suspected travellers using falsified documents from entering the borders, thereby enhancing the international image of our country.

### Tweet 3

To assist new immigrants in adapting to life in Taiwan and to elevate national competitiveness with the advantages multiculturalism brings, the NIA is committed to the cultivation of people with native language ability as volunteers to be interpreters. Also, the NIA has cooperated with government departments to promote several measures such as the Hotline for Foreigners in Taiwan, which provides free, real-time services in 7 languages [in order ] to care for new immigrants.

### Tweet 4

Human trafficking is a serious violation of human rights. Therefore, the NIA not only promotes the fight against trafficking through multiple channels including the media and other kinds of activities, but also has invited officials from other countries and experts and scholars of NGOs to participate in the “International Workshops on Prevention of Human Trafficking” every year for the purpose of updating information and knowledge of human trafficking prevention from other countries.

請回答下列第 18 題至第 20 題

Failure: We all avoid it, and most of us fear it. However, without failure, progress would be impossible. Indeed, the word success comes from the Latin *succedere*, meaning “to come after.” And what does success usually come after? Failure. It seems that one cannot exist without the other.

Accepting failure is not easy for many, though. We are often reluctant to admit failure because our professional reputations depend on success. However, things are slowly changing, notably in the field of business and science. In the past decade, for instance, some scientific journals – mostly in medicine and conservation – have published reports of failed experiments. The belief is that the science community can also learn from “negative” results and that this can eventually lead to positive outcomes.

In many ways, the business world already understands the value of negative results. To encourage entrepreneurship, the Netherlands-based ABN AMRO bank started an Institute of Brilliant Failures to learn more about what works and what doesn't in banking. Similarly, Eli Lilly and Company, the pharmaceutical corporation, has “R&D outcome celebrations” – failure parties – to study data about drugs that don't work. (Almost 90 percent of all drug trials fail, and the drugs cannot be sold.)

In fact, one of the business world's most famous failures eventually became one of its biggest successes, in part because the product's makers learned from their mistakes. In the early 1990s, Apple Corporation created a hand-held device called the Apple Newton. The product, though unique at the time, was expensive and heavy; moreover, some of its most important features didn't work properly. Consequently, it became one of Apple's biggest failures, and in 1998, the company stopped selling it. However, Apple's CEO, Steve Jobs, believed the product had potential and he began to explore ways of improving it. In time, this led to the creation of the iPhone and the iPad, two of the company's most

successful products.

The story of the Apple Newton can teach us another important lesson about failure. Not only should we try to learn from it; if we want to succeed, we must also be persistent. Though Apple stopped selling the Newton in 1998, the first iPhone wasn't available until 2007. It took a lot of research and hard work to go from the Apple Newton to iPhone, but in the end, the effort paid off.

Ultimately, there is a lot we can learn by studying mistakes. Perhaps the most important lesson is that failure and success are two sides of the same coin. One truly cannot exist without the other.

- (C) 18. What is the best way to summarize the reading passage?
- (A) Success and fear are basically the same thing.
  - (B) Failure is always followed by success.
  - (C) You may need to fail before you can succeed.
  - (D) Accepting failure is very difficult.
- (D) 19. Why are some scientific journals starting to publish the results of failed experiments?
- (A) to encourage new experiments in other fields
  - (B) so that people can discuss and share their findings at failure parties
  - (C) to admit that the scientific community makes mistakes
  - (D) because of the belief that negative results can lead to successful outcomes
- (C) 20. Which advice would the author most likely agree with?
- (A) If you want to be successful, ask successful people what they did to succeed.
  - (B) Accept that some people fail and not everyone is meant to succeed.
  - (C) If you make a mistake, ask yourself what went wrong and try to learn from it.
  - (D) You should think of failure and success as the same thing.
